The 2000 election was the craziest one of my lifetime. From election day to the day the Supreme Court ordered the recounting to end, there were press conferences, count updates, court decisions, and angst throughout the country. Hanging chads and dimpled chads became part of the American lexicon. One can understand why voting totals reached a new level in 2004. Voting totals remained in the 2004 neighborhood through the 2016 election.

The anomaly of 2020 only becomes more glaring when you look at the democrat vote totals for these election years:

2000 – Al Gore Jr. –	50,999,897
2004 – John Kerry –	59,028,444
2008 – Barack Obama –	69,498,516
2012 – Barack Obama –	65,915,795
2016 – Hillary Clinton –	65,853,514
2020 – Joe Biden –	81,268,867
2024 – Kamala Harris –	68,071,030

It is not difficult to find the outlier. Decrepit and demented Joe Biden got more votes in 2020 than the first black president, the first female presidential candidate, and the first female of color presidential candidate.

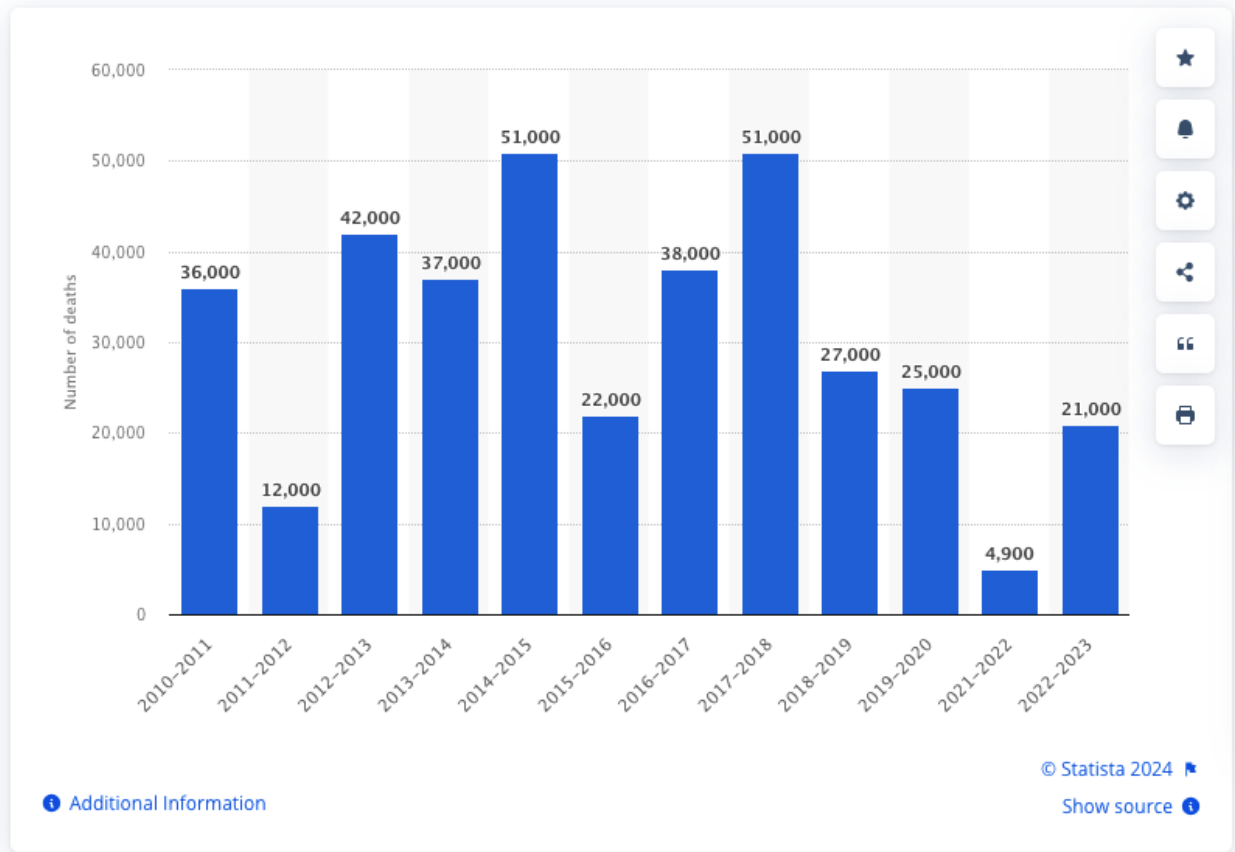

And just as a reminder, Barack Obama set the record for votes in 2008 with sixty-nine million votes while winning 27% of all U.S. counties. Joe Biden then smashed that record while winning only 17% of all U.S. counties.

Funny thing is, if you questioned the legitimacy of the 2020 election, you were prosecuted, ostracized, de-platformed, disbarred, and even imprisoned.

Being a human in 2024 and having the ability to recognize the obvious seems to be a super power.

Note – While each of the other years in the tables above are compared to the prior year, 2021 is compared to the pre-pandemic year of 2019. It makes no sense to compare 2021 to an already pandemic-effected, elevated death total in 2020.

Men in wigs and dresses teaching and reading to our children is stunning and brave!

Mutilating children’s sexual reproductive systems is the best way to treat the gender confusion created by the men in dresses teaching school and reading to children!

Obviously pornographic material in books available to our children is inclusive!

I could keep going, but hopefully you get the picture.

Imagine what life will be like when our fellow man realizes that our country was stolen in 2020. As a result of that stolen election, our country began to experience a plethora of adverse events such as:

- **Humiliating Afghanistan withdrawal including the deaths of thirteen service members**
- **Unscientific and unhealthy mask mandates**
- **Government led censorship of:**
 - *Doctors telling the truth about covid
 - *Doctors telling the truth about the mRNA experimental injection
 - *Victims telling their stories of hospital protocols
 - *Victims telling their stories of vaccine injuries
 - *Early Covid treatments - Ivermectin and Hydroxychloroquine
 - *Election integrity efforts
 - *Natural immunity

- **Money laundering in Ukraine**
- **A total disaster in the Middle-East**
- **Vaccine mandates**
- **Excess deaths**
- **The use of the legal system to persecute political dissidents (Jan 6th and Donald Trump)**
- **The cover-up of Joe Biden's dementia**
- **The cover-up of Kamala Harris' intellectual deficiencies**
- **Geopolitical failures resulting in closer economic and military ties between Russia and China**
- **The rise of BRICS**
- **The fall of the dollar**
- **Skyrocketing inflation**

The use of the [Two Minutes Hate](#) to demonize President Donald Trump and his supporters almost worked. I feel pity for those who fell for the poison spewed by our media. Many are convinced that half the nation is racist, misogynist, xenophobic, and in love with authoritarianism.

As Mark Twain said, "It is easier to fool a man than to convince him he's been fooled."

Many in our nation and around the world have been fooled. This election has done exactly what it was intended to do. "Too big to rig" was not just a slogan. I am certain that many of the 140 million votes recorded this year are fraudulent. However, as the night wore on, the perpetrators of the fraud determined that they could not make up enough votes and ceased their attempt. For anyone with a thinking brain, this election proved the theft of the 2020 election.

Having said that, if your election contains any of the following, it is being stolen:

- **Mail-in Ballots**
- **Ballots moved and stored outside of your precinct**
- **Vote is counted outside of your precinct**
- **Vote on a machine**
- **Vote is printed out by a machine**
- **Your vote is counted by a machine**
- **Your precinct total is not immediately reconciled to the county which is then reconciled to the state**

If one election can be stolen, all elections can be stolen. Just because I like the outcome doesn't mean the election has anymore integrity or authority than those elections where I suspect a theft occurred. Until all elections are legitimate, no elections are legitimate. Some

could argue that cutting their losses and announcing Donald Trump the winner allows people to forget about the broken process.

81,000,000 VOTES – More than the first black president, the first woman presidential candidate, and the first woman of color presidential candidate. It's okay to admit it to yourself now. Once you do, more things will make sense.

To those who stole 2020, poisoned our citizenry, attacked the innocence of our children, destroyed our economy, weakened our military, betrayed our constitution, lied to the American people, propagandized the population...

Accountability is coming!
